In 2010, ROBLOX again added games such as: 'Mech', 'Space Age', 'Pirate Invasion' and more. The game 'Brothers in Arms' was also released on January 23, 2010. The game 'Brothers in Arms' was a multiplayer online shooter with three different game styles: Team Deathmatch, Free-for-All and Capture the Flag. There are a number of settings in your account that can be changed, including your e-mail address, password, birthday, username, and the overall look of your account. You can also add a picture or video to your profile. However, you cannot change the color of your name (unless you join up for a Builders Club subscription), nor the overall color scheme. ROBLOX offers ten different color schemes that players can choose from; these include Gold, Green, Blue, Black & Red and many more. Due to the nature of ROBLOX's game engine, players need to be able to manipulate various graphical elements by using the in-game tools provided by ROBLOX. These tools include resizing, rotating, and moving various objects and creating texture maps. It can be used in the creation of 3D games, but the game must be made using a 2D game maker such as Game Maker or Flash itself.
